EDUCATION

Bachelor of Science (Honours) in Computer Science — First Class Honours

University of Auckland | Feb 2022 – Dec 2025 | GPA: 8.06 / 9

- University of Auckland Postgraduate Honours / PGDip Scholar
- Focus: Machine Learning, Applied AI Systems, Large-Scale Software Development

PROFESSIONAL EXPERIENCE

Founding Engineer & CTO (Hands-On) | AIvolve | Dec 2025 – Present

- Designed and implemented an AI voice agent for inbound calls, lead qualification, and automated job booking using LLM-based intent parsing and calendar APIs
- Built end-to-end call handling workflows (speech → intent → scheduling → CRM sync) to reduce missed bookings during on-site work hours
- Deployed a production-ready beta and supported pilot users across construction and home services

Founding Engineer & CTO (Hands-On) | Align Health Tech | Oct 2025 – Present

- Designed and implemented AI-driven clinical workflow automation for GP clinics, integrating with existing Practice Management Systems
- Built automated patient summarisation and referral generation pipelines to reduce clinician administrative workload
- Secured NZD \$15K Velocity Challenge funding and supported early pilot deployments

Research Assistant (AI-Based Web Development) | University of Auckland | Dec 2024 – 2025

- Built an AI-powered course assistant using GPT-based NLP, TTS voice synthesis, and an avatar-based React frontend
- Designed conversational interfaces to replace static course information pages
- Awarded 2nd Place, COMPSCI 399 Capstone Competition (2024)

SELECTED PROJECTS

Honours Dissertation — On-Device Medical Triage with Compact LLMs

- Achieved **70.4% triage accuracy** with **2.4s end-to-end latency** on iPhone 14 Pro using an on-device RAG system
- Built with quantized SmoLLM2 (135M–360M) and LoRA fine-tuning on 13,825 synthetic triage cases

Plain Rights — Legal Document Simplification (*1st Place, Legal Tech Hackathon*)

- Built a RAG pipeline translating complex legal contracts into verified plain-English summaries

Pomocoin — Gamified Productivity App (iOS Beta)

- Built a React Native productivity app with offline support, subscriptions, and reward-based gamification

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, SQL, Java, C#

AI / ML: RAG, LoRA fine-tuning, quantization (4-bit / 8-bit), LLM APIs (OpenAI, Gemini), local inference (Ollama)

Web / Mobile: React, React Native, Next.js, Django, Flask, Express.js, Tailwind CSS

Databases: Firebase, MySQL, SQLite

Cloud / Infra: AWS

Tools: Git, Jira, VS Code (2 published extensions), Cursor

ADDITIONAL EXPERIENCE

Personal Trainer (NASM Certified) | CityFitness | Sep 2024 – 2025

Math Tutor | Self-Employed | May 2023 – 2024

ADDITIONAL ACHIEVEMENTS

- Published 2 VS Code extensions (LOCAI, File Star) to the Marketplace
