

Brendan Manseung Choi

AI Engineer | Full-Stack Developer

Auckland, New Zealand | brendanchoi0626@gmail.com | +64 22 036 8384

LinkedIn: linkedin.com/in/manseung-choi-0447b4223 | GitHub: github.com/mcho868 | Portfolio: manseungchoi.com

EDUCATION

Bachelor of Science (Honours) in Computer Science — First Class Honours University of Auckland | Feb 2022 – Dec 2025 | GPA: 8.06 / 9

- University of Auckland Postgraduate Honours / PGDip Scholar
- Focus: Machine Learning, Applied AI Systems, Large-Scale Software Development

PROFESSIONAL EXPERIENCE

CTO & Co-Founder | AIvolve | Dec 2025 – Present

- Architected and built an AI voice agent handling inbound calls, lead qualification, and automated booking for NZ trade businesses
- Replaced manual call handling with calendar-integrated scheduling to reduce missed revenue during work hours
- Deployed production-ready beta and onboarded pilot clients across construction and home services

CTO & Co-Founder | Align Health Tech | Oct 2025 – Present

- Leading development of AI-powered clinical workflow automation for GP clinics, integrating with Practice Management Systems
- Automated patient summaries and referral generation to reduce administrative overhead in clinical operations
- Secured NZD \$15K Velocity Challenge funding and initiated pilot partnerships with NZ medical practices

Research Assistant (AI-Based Web Development) | University of Auckland | Dec 2024 – 2025

- Built an AI-powered course assistant combining GPT-based NLP, TTS voice synthesis, and avatar-based UI in a React frontend
- Designed conversational interfaces to replace static course information pages and improve student engagement
- Awarded 2nd place in COMPSCI 399 Capstone Competition (2024)

SELECTED PROJECTS

Honours Dissertation — On-Device Medical Triage with Compact LLMs | 8 months

- Built an on-device RAG system using quantized SmolLM2 (135M–360M) with LoRA fine-tuning on 13,825 synthetic triage cases
- Achieved 70.4% accuracy with 2.4s end-to-end latency on iPhone 14 Pro, demonstrating feasibility of privacy-preserving mobile medical AI

Plain Rights — Legal Document Simplification (1st Place, Legal Tech Hackathon) | 48 hours

- Addressed low legal literacy by building a RAG pipeline translating complex contracts into verified plain-English summaries
- Won 1st place among 12 teams; judges highlighted immediate real-world applicability for consumer protection

Pomocoin — Gamified Productivity App (iOS Beta) | 6 months

- Built a React Native productivity app with offline support, subscriptions, and reward-based gamification

TECHNICAL SKILLS

Languages: Python, TypeScript / JavaScript, SQL, Java, C# **AI / ML:** RAG Systems, LoRA Fine-Tuning, Quantization (4-bit / 8-bit), LLM API Integration (OpenAI, Gemini, Tinfoil), Local LLM Deployment (Ollama) **Web / Mobile:** React, React Native, Next.js, Django, Flask, Express.js, Tailwind CSS **Databases:** Firebase, MySQL, SQLite **Cloud / Infra:** AWS **Tools:** Git, Jira, VS Code & Cursor (Published 2 Marketplace Extensions)

ADDITIONAL EXPERIENCE

Personal Trainer (NASM Certified) | CityFitness | Sep 2024 – 2025

Math Tutor | Self-Employed | May 2023 – 2024

ACHIEVEMENTS

- Published 2 VS Code extensions (LOCAI, File Star) to the Marketplace
- 1st Place, University of Auckland Legal Tech Hackathon 2025
- University of Auckland Postgraduate Honours Scholar (First Class Honours)
